WORK EXPERIENCE

- **Web Services Student Intern** June 2017 - Present
University of St. Thomas - St. Paul, MN
 - currently designing/developing a website that explains web accessibility to students and employees
 - assisted university faculty and staff in over 100 service request tickets
 - assisted UX team in redesigning the University's Newsroom website
- **Information Technology Services Desk Worker** June 2016 - May 2017
University of St. Thomas - St. Paul, MN
 - assisted in solving over 1,000 technical assist tickets
 - responded to ~25 classroom/event technical emergencies
- **Fjallraven Retail Employee** June 2015 - September 2015
Mall of America - Bloomington, Minnesota
 - assisted customers in choosing outdoor clothing and technical gear

PROFESSIONAL AND PERSONAL PROJECTS

- **St. Thomas Web Accessibility Website**
HTML5 | CSS3 | Foundations CSS Framework | Adobe Illustrator | Adobe Experience Design
My current task at the University of St. Thomas is to build out a website that explains web accessibility concepts to University students, staff, and faculty. This project is still in development, but the progress so far can be viewed under my GitHub profile (listed below).
- **Blog Content Management System**
HTML5 | CSS3 | JavaScript | PHP | Laravel 5.2
I wanted to learn more about PHP backend frameworks and the MVC design pattern, so I used PHP Laravel 5.2 to build a content management system for a blog. The system allows the admin to login, create/edit/delete posts, categories, and tags from the admin views in the site.
- **Productivity Website**
HTML5 | CSS3 | JavaScript
My first assignment in my Web Development course was to create a productivity website that had two pages. One page keeps track of a to-do list, and the other shows the user inspiration images using the "lightbox technique." We were not allowed to use any frameworks for this assignment.

EDUCATION

University of St. Thomas - St. Paul, MN
Graduation Date: May 2018
Computer and Information Science B.A.
German B.A.

ONLINE PRESENCE
