WORK EXPERIENCE

- **Web Services Student Intern**   June 2017 - Present
  University of St. Thomas - St. Paul, MN
  - currently designing/developing a website that explains web accessibility to students and employees
  - assisted university faculty and staff in over 100 service request tickets
  - assisted UX team in redesigning the University's Newsroom website

- **Information Technology Services Desk Worker**   June 2016 - May 2017
  University of St. Thomas - St. Paul, MN
  - assisted in solving over 1,000 technical assist tickets
  - responded to ~25 classroom/event technical emergencies

- **Fjallraven Retail Employee**   June 2015 - September 2015
  Mall of America - Bloomington, Minnesota
  - assisted customers in choosing outdoor clothing and technical gear

PROFESSIONAL AND PERSONAL PROJECTS

- **Breathe Buddy Web App**
  HTML5 | CSS3 | AngularJS | JQuery

  My partner and I created an application that combines the Google Maps API and Open AQ Platform API to show you information about the air quality in your area. This project is complete but will not go public on GitHub until it's due date, April 6, because of our professor's requirements for assignments.

- **Blog Content Management System**
  HTML5 | CSS3 | JavaScript | PHP | Laravel 5.2

  I wanted to learn more about PHP backend frameworks and the MVC design pattern, so I used PHP Laravel 5.2 to build a content management system for a blog. The system allows the admin to login, create/edit/delete posts, categories, and tags from the admin views in the site.

- **Productivity Website**
  HTML5 | CSS3 | JavaScript

  My first assignment in my Web Development course was to create a productivity website that had two pages. One page keeps track of a to-do list, and the other shows the user inspiration images using the "lightbox technique." We were not allowed to use any frameworks for this assignment.

EDUCATION

University of St. Thomas - St. Paul, MN

Graduation Date:	May 2018
Computer and Information Science	B.A.
German	B.A.

ONLINE PRESENCE

Portfolio Website:	www.colesamdevelopment.com
LinkedIn URL:	www.linkedin.com/in/colesam21
GitHub Username:	colesam
Stack Overflow ID:	8053821

TECHNICAL SKILLS

HTML5	JavaScript	AngularJS	SQL Databases	Adobe Photoshop	Linux
CSS3	JQuery	PHP	C	Adobe Illustrator	GitHub
SASS	React	Laravel v5	Java	Adobe XD	Umbraco CMS
